

PARISH MERGER

September 7, 2008

Bishop Galante will be meeting with all the priests within our Diocese this coming Wednesday, September 10th. At that time information regarding membership for the core teams for each parish will be presented. Following this meeting each parish that will be merging is to select a core team to work on the specifics for the merger process. More information will be given in the parish bulletin in this regard. Once again remember this process will take several months to a year or more before the parishes are fully merged as a new parish entity. Once again please keep this special intention in your prayers as we joyfully look forward to a new beginning.
