

CORE TEAM FORGES AHEAD

Last Sunday the Core Team of St. Veronica and St. Cecilia's met to begin the process of reviewing data and profiles of our two parishes and to coordinate the gathering of needed information in order "to prepare for the future administration and staff of the new parish and to strengthen ministries toward greater vibrancy" (taken from the Merger Manual). On December 7th the Core Team will meet with the Pastoral and Finance Councils of both parishes to produce a "Parish Overview" of the existing parish's vision and mission and enabling the Core Team to set its agendas, gathering input and consultation and covering all the details needed before the actual merger takes place. This will be the primary task the Core Team will undertake into the New Year and beyond.

Next week some of the primary questions which the Pastoral Councils will address on the Parish Overview will be listed as an indication of the areas which the Core Team will need to cover.
